EDUCATION

Georgia Institute of Technology

Bachelor of Science in Computer Science - GPA: 3.77

Atlanta, GA

Expected Dec. 2026

EXPERIENCE

Software Development Intern | .NET Core, C#, React, Docker, Kubernetes, SQL

June 2025 – Present

PowerPlan

Atlanta, GA

- Developing cloud-native enterprise applications using React frontend with .NET Core backend, serving 10,000+ users.
- Implementing microservices architecture with Docker containerization and Kubernetes orchestration for scalability.
- Collaborating in Agile Scrum environment with cross-functional teams, utilizing CI/CD pipelines and automated testing.

Cybersecurity Research Intern | C, Java, Jenkins, Python, Docker

May 2024 – May 2025

Georgia Tech Research Institute

Atlanta, GA

- Collaborated with international team (SSLab, GTRI, KAIST) for DARPA AIxCC Finals, qualifying for DEFCON 32.
- Developed and optimized C-based testing frameworks and automated mutation tools for Cyber Reasoning Systems.
- Implemented CI/CD pipelines using Jenkins, reducing deployment time by 40% for research prototypes.

Research Assistant | Python, pandas, Matplotlib, Data Analysis

Aug. 2022 – Jul. 2023

Lincoln Labs

Lexington, MA

- Conducted quantitative research analyzing 500,000+ educational data points using Python and statistical modeling.
- Built automated data visualization pipelines with Matplotlib/Seaborn, reducing report generation time by 60%.
- Published peer-reviewed findings, demonstrating strong analytical and communication skills in technical writing.

Data Engineer | Python, pandas, Data Processing

Jun. 2022 – Aug. 2022

Russian School of Mathematics

Lexington, MA

- Engineered data-cleaning pipeline processing 2M+ student records, improving efficiency by 30% through automation.
- Collaborated with cross-functional teams to implement robust data validation and error handling mechanisms.

Software Developer Intern | WordPress, PHP, MySQL, Web Development

Apr. 2021 – Aug. 2021

RK Centers

Burlington, MA

- Built secure user authentication system and property management interface using PHP and MySQL.
- Designed responsive web interface improving user experience and reducing customer support requests by 25%.

PROJECTS

Spotify Wrapped Mobile App | Android Studio, Java, Firebase, REST APIs, Unit Testing

Feb. 2024 – Apr. 2024

- Developed cross-platform mobile application with Firebase authentication and real-time data synchronization.
- Integrated Spotify REST API to generate personalized music recommendations using machine learning algorithms.
- Implemented comprehensive unit testing suite with JUnit, achieving 90%+ code coverage for core functionality.
- Built community features enabling user interaction and social sharing, supporting 1,000+ active users.

1Record - Cornell Health RX Winner | Python, MongoDB, ReactJS, TypeScript

Mar. 2024

- Developed full-stack healthcare application using React/TypeScript frontend with Python backend and MongoDB.
- Implemented LLM-powered Electronic Health Record analysis system for predictive healthcare insights.
- Collaborated in 48-hour hackathon environment, demonstrating rapid prototyping and problem-solving skills.

Discord Applications Platform | JavaScript, TypeScript, Node.js, MongoDB, Docker, Jest

Jul. 2021 – Jan. 2024

- Architected and deployed two scalable applications serving 346,075+ users with 99.9% uptime.
- Implemented comprehensive testing suite using Jest and automated deployment with Docker containerization.
- Built CI/CD pipeline with Jenkins reducing deployment downtime to under 5 minutes and enabling rapid iterations.
- Optimized application performance through profiling and benchmarking, reducing response times by 35%.

AWARDS

CDAIT IOT Challenge Winner

May 2024

Developed food deliver robot prototype and awarded \$15,000 in funding

Cornell Health RX Winner

Mar. 2024

Awarded \$3,000 cash prize for top placement in Cornell hosted hackathon

Sparkletime Crown of Os

Jul. 2024

Virtual Roblox award achieved for receiving 100,000+ monthly active users

Xerox Award for Innovation and Information Technology

Jun. 2022

Book Award for innovation leadership, pursuing tech opportunities, and guiding peers in creative problem-solving

TECHNICAL SKILLS

Web Technologies: React, TypeScript, JavaScript, HTML/CSS, Node.js, REST APIs, JSON, WebSockets

Languages: Python, Java, C#, C++, C, SQL (Postgres), PHP, Kotlin

Testing & Tools: Jest, JUnit, pytest, Storybook, Git, Docker, Jenkins, Gradle, VS Code, Linux/Unix Shell

Databases & Cloud: MongoDB, MySQL, Firebase, AWS, Kubernetes, CI/CD Pipelines

Development Practices: Agile/Scrum, Unit Testing, Integration Testing, Performance Profiling, Code Review, Documentation
